

DATE: July 20, 2007
PRODUCT: ARGO AZ-4P/6P Zone Valve Control Availability
FROM: ECR Corporate Marketing

IMPORTANT: Please be advised that the Argo AZ-4P and AZ-6P are discontinued. Both items are no longer available and have been replaced by the Argo AZ-4CP and Argo AZ-6CP which were introduced in Fall 2006. The new Argo AZ-4CP & AZ-6CP Zone Valve Controls feature a built in Circulator or Zone Valve Priority Option.

ARGO AZ-4CP and AZ-6CP Features include:

Application Flexibility

- ✓ Four (AZ-4CP) or Six (AZ-6CP) zone valve controller
- ✓ Zone 1 can be set as priority zone
- ✓ Priority Zone 1, can be configured for use with either circulator or zone valve

Great Control for Indirect Hot Water Application!

- ✓ Optimum hot water performance when configured for use with circulator
- ✓ Dedicated hot water circulator eliminates zone valve pressure drop, increasing hot water flow up to 20%
- ✓ Optional configuration for instantaneously tankless coil boiler applications

Installation and Service Features

- ✓ Clearly visible LED's through front window shows zones calling and satisfied
- ✓ Design ensures all relays energize even with power robbing thermostats
- ✓ Auto reset fuse prevents nuisance calls
- ✓ Two controls can be connected for a maximum of 10 zones with Priority Zone
- ✓ Built in timer automatically shuts off priority after 30 minutes and enables other zones
- ✓ Pump inactive timer turns pumps on for 5 seconds if idle for more than 24 hours
- ✓ 5 Year Warranty, 100% factory tested made in USA
