

DATE: September 18, 2007

PRODUCT: ARGO Controls

SUBJECT: Discontinued Control Models

FROM: ECR Corporate Marketing

AFFECTED MODELS:

Part Number	Model	Description
Z144	AR832	Single Zone (TPST) Relay
Z156	AZV245-WR	5- Zone valve control. This control can only be used on White Rogers Zone Valves

The controls listed above were manufactured for specialized applications. The use of these controls has been limited. Effective immediately, ECR International will no longer manufacture the AR832 and AZV245-WR model controls.

A limited number of these controls are still available for sale from Argo inventory. Once the inventory is depleted, the products will be obsolete.

Replacement Suggestions

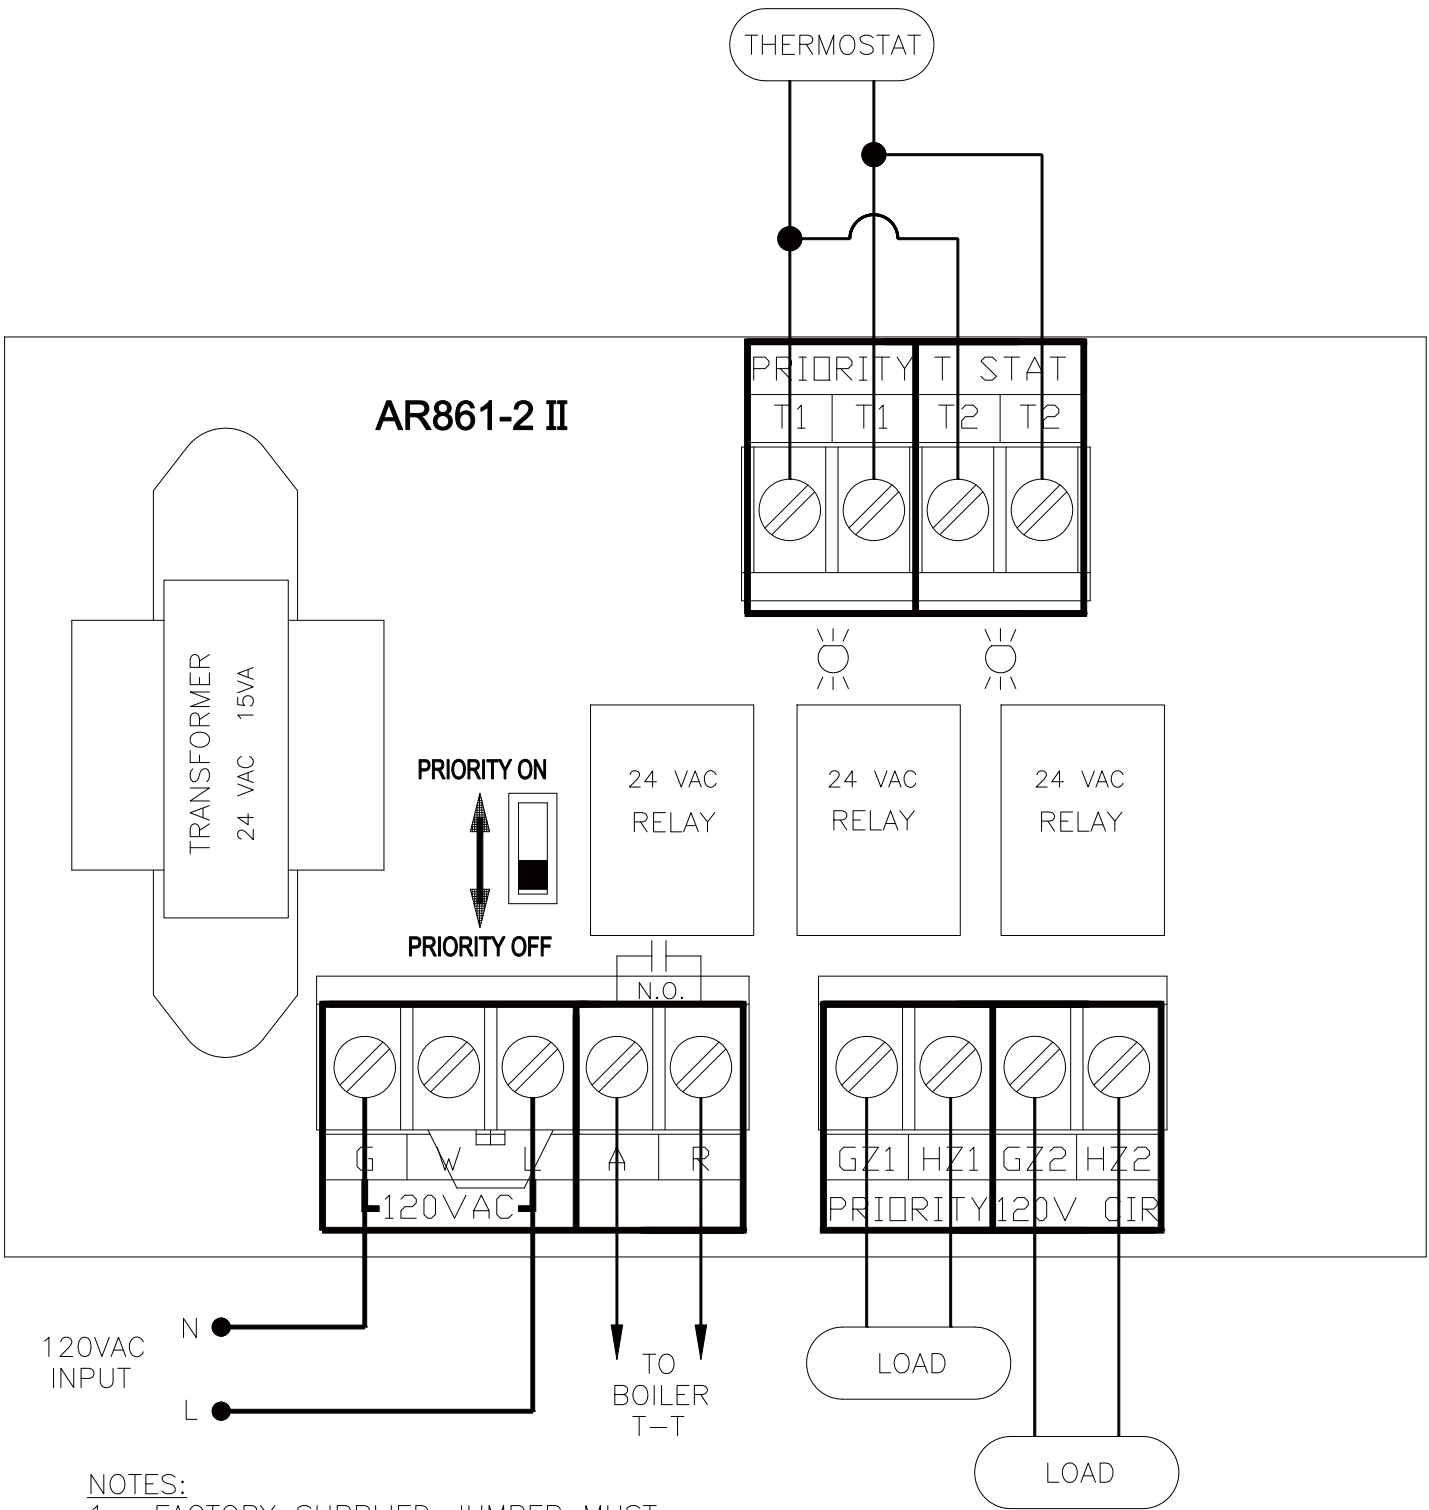

AR832

The current AR861-2II may work in place of the Argo AR832 depending on the specific application. The AR861-2II is not an exact replacement and may not work in every application. Please refer to the enclosed Wiring Diagram for additional information.

AZV-245-WR

No Argo replacement is available for this model.

If you have any questions please contact Customer Service at 1-800-325-5479.

- NOTES:
1. FACTORY SUPPLIED JUMPER MUST BE BETWEEN W & L.
 2. PRIORITY SWITCH IN OFF POSITION
