

**PRODUCT: ARGO AMB4A/AMB8A Boiler Controls**  
**FROM: Corporate Marketing**

Argo proudly announces the new AMB4A & AMB8A multiple boiler controls. ECR International is committed to producing products that satisfy the needs of our installers.

**Application Flexibility**

- Four (AMB4A) or Eight (AMB8A) Boiler staging control
- Compatible with fixed capacity or modulating boilers
- Outdoor temperature reset
- Programmable features to customize the control settings

**Ideal Control for Multiple Boilers with Indirect Hot Water Application!**

- Controls up to eight boilers with equal run time rotation
- Adjustable response time to optimize efficiency of existing systems
- Domestic Hot Water Priority setting with a temperature boost feature

**Installation and Service Features**

- Display shows Date/Time, Outdoor Temperature, Water Supply Temperature and Control Point Temperature
- Easy to program with memory not affected by a power loss.
- Auto Test Mode with a self diagnostic feature
- Outdoor temperature reset with the sensor located up to 500' away
- Commercial grade, locking steel cover with knockouts provided for field wiring
- 5 Year Warranty, 100% factory tested
